

Jeremiah Daws

Apps & AI · Founder · Voice-AI & Full-Stack Practitioner

Buford, GA · (310) 845-5702 · jedaws@gmail.com · jeremiahdaws.com

SUMMARY

Producer / Director at FORM, an Atlanta story company, and a self-taught full-stack and AI builder. Independent AI consultant (consulting and training for small businesses). Builder of the GetSafeFamily kid-safe app suite, and JARVIS, a personal AI operating system. Ship production apps weekly with Next.js, Convex, and Vapi. Bring fifteen years of producer-side judgment — fast turnaround, opinionated taste, and the discipline of shipping to deadline — into AI engineering.

STACK

Next.js (App Router) · TypeScript · React · Convex · Vercel · Tailwind · Stripe · Vapi voice AI · Twilio · OpenAI & Anthropic SDKs · MCP (Model Context Protocol) tool building · Prompt engineering · Auth (JWT) · Postgres & Convex · Outscraper · LangChain-adjacent agent design · Telegram bots

BUILDER EXPERIENCE

Producer / Director · FORM

Form Films · Atlanta story company

2026–present

- Rebuilt FORM's website (formgreatstories.com). Direct *Calendar Jockeys*, a short comedy series from Form Films.

Independent AI Consultant

Side practice · Atlanta

2026–present

- AI consulting, AI training, vibe coding, and websites with AI built in, for small businesses and professionals.
- ReadyTote (readytote.vercel.app) — website plus a Claude-powered assistant that answers visitors, tells customers about their own booking, and briefs the owner on the week.
- Artios Cafe (artioscafe.com) — built and maintain a school lunch cafe run end to end by software: ordering, payments, counter POS sync, P&L, volunteer scheduling, and a staff AI assistant that proposes changes for a person to approve.
- Also built a voice-AI phone-agent platform on Vapi + Twilio (calendar booking, A2P-approved SMS, client portal) and Stripe-checkout assessment products.

Founder · SafeFamily app suite

getsafefamily.com — kid-safe content platform

2024–present

- Built and run four production apps under one auth source: SafeTube (kid-safe YouTube), SafeTunes (music), SafeReads (books), SafeStudy (homework help).
- Single JWT auth across apps, cross-app provisioning, and a shared family-code system. Stack: Next.js, React + Vite, Convex (5 deployments), Stripe.
- Designed and shipped Stripe lifecycle handling including the cancellation-webhook race condition that previously overwrote lifetime status.

Builder · JARVIS personal AI OS

Daily-driver assistant

2025–present

- Telegram-fronted personal AI with ~150 MCP tools across Gmail (4 accounts), Calendar, Drive, and home automation.
- Test-bed for automation patterns. What works in JARVIS for me shapes what I build for others.

Side-Project Apps

Independent

2025–present

- Friday Night Video (fridaynightvideo.app), Beavers Bathroom Blitz (3D web game), I'll Pray For You (illprayforyou.com), Artios Connect, Artios Cafe — production deployments on Vercel.

Creative-Tech Teacher (AI vibe-coding curriculum)

Artios Academies of Sugar Hill

2022–2026

- Wrote and taught a high-school AI vibe-coding course alongside electronics, robotics, and Fusion 360.

EARLIER CAREER

Marketing Video Producer/Editor at Disney Parks (Yellow Shoes) & Disney Consumer Products (2015–2021). Editor on *Building Wild* (Nat Geo), *Our Wild Hearts* (Hallmark), and *Starting Strong* (Ricky Schroder, U.S. Army reality).

EDUCATION

B.A. Film & Video — Georgia State University · Precision Machining & Manufacturing — Lanier Technical College · SkillsUSA National Silver (CNC Turning)
